PEACE FOR BULGARIA IS WITHHELD

GERMAN CHANCELLOR RESIGNS

May Prepare Big Changes in Germany

(By Associated Press)
London, Sept. 28.—Count von Hauer, the German Imperial Chancellor, has resigned, according to a message received by the Central News Agency from The Hague.

WANTS NAVY TO CLOSE PIER

In a letter to Secretary Daniels of the Navy, Joseph A. Conry asks that his plan of erecting a receiving ship on Governor's Island to replace Commonwealth pier at Boston be taken under advisement owing to the fact that the impression has been circulated throughout Boston that the influenza epidemic started at the receiving ship and because of the fact that the pier has never been considered as

an ideal spot for the receiving and stationing of so many men in the service.

He adds, further, that about the first of last May he submitted a plan to use Governor's Island, the property of the government, which is an ideal location and easily accessible to both sea and land. This project met with but languid interest on the part of the naval authorities, who expended \$150,000 over the estimated appropriation of \$100,000 which was made by Congress for the fixing up of the pier.

As a solution to the problem he urges that a commission of civilians, including a health expert, be appointed to report as to the advisability of closing the pier.

GAVE READING MATTER

A number of books and magazines have been received at the Y. M. C. A. war work office on Pleasant street for the convalescent enlisted men in the Naval Hospital and prison at the navy yard. The reading matter was gratefully received and any more donations in the way of reading matter will be acceptable.

AMERICANS ACTIVE IN 50 MILE GAIN

(By Associated Press)
Archangel, Sept. 28.—Tuesday, Sept. 24.—American troops who are now taking part in the operations in virtually all sectors on the northern Russian front have captured several villages in recent fighting. The American cooperated with British and Russians. Many more places have been taken in the past ten days along the Dvina. An advance of more than 50 miles has been made.

THE WEATHER

Washington, Sept. 28.—Fair tonight and Sunday. Slightly cooler tonight in Vermont. Fresh southwest to west winds.

Foch, the French Wizard, Opens Smash in Ypres Sector and Practically Envelops Entire Western Front—Cambria is About to Fall—Prisoners Are Flowing In—Collapse of Bulgaria About Complete—Allies Make Known Conditions of Peace—No Armistice

CAMBRIA IS ABOUT TO FALL
French and Yankees Will Take City Within Few Hours

(By Associated Press)

British, French and Americans have taken more than 27,000 prisoners in their Cambrai drive. The British have captured 10,000, while the Franco-Americans have increased their totals to more than 16,000. Belgians and British have captured more than 1000. Serbian and other allied forces in Macedonia are pressing victoriously the pursuit of the disorganized Germans and Bulgarians.

Miss Dorothy Thullen, who has been passing the summer at York Beach, left this week for Philadelphia.

Washington—The impending collapse of Bulgaria, Gen. March said today was a direct result of the concentration of the American forces on the western front. Great Britain has replied to the Bulgarian request for an armistice. In this reply it is perfectly well defined that no military operations will be suspended. At the same time regarding the proposal that duly accredited Bulgarian representatives should confer with the allies on the question of peace, it has been made clear to the Soissons government that such a peace necessarily involves a complete rupture by the Bulgarian government with Turkey, Germany and Austria Hungary. The allied governments necessarily demand every guarantee which they consider necessary to them to safeguard their military operations and prevent the despatch of German troops to Bulgaria. In discussing the Bulgarian proposal it is pointed out that the allies have no intention to attempt to make a final territorial settlement in the Balkans which obviously must be a matter for consideration by the peace conference. If the demands laid down

BRITISH GET BIG HAUL MEN AND GUNS

(By Associated Press)

London, Sept. 28.—Ten thousand prisoners have been captured by the British in the Cambrai area. Field Marshal Haig announced in his official statement today: "200 guns have been captured. The British have captured several towns. The British pressed their attack yesterday without a moment's let-up until a late hour and in the evening accentuated notably their progress in the northern portion of the battlefield."

NAVY ASKS FOR 125,497,960 MORE

Washington, Sept. 28.—Congress was asked today by the Navy Department for an additional appropriation of \$125,497,960 for expenses during the remainder of the 1918 fiscal year.

Construction of training camps and providing for their equipment, calling for \$28,500,000, was the largest item of the estimates.

NEW HOLD BY ALLIES

(By Associated Press)

Paris, Sept. 28.—Allied troops began an attack on the front north of Ypres today and the advance at some points has been more than 2 1/2 miles. The attack is being made by the Belgian army and is on the larger part of their front south from the North Sea. 1000 prisoners have al-

ready been counted. Heavy fighting is taking place between Dixmude and Ypres and the battle is severe in the Houthoek forest north of Ypres.

DOVER HAS A THOUSAND CASES

Dover, Sept. 27.—Local physicians estimate today the number of grippe cases in Dover at nearly 1000. The Board of Health met this afternoon to consider closing the schools and theatres unless the situation immediately improves. St. Mary's Academy was closed yesterday until Monday. In the mills many spindles are reported idle because of sickness among the operators. There have been few fatal cases here.

LOCAL AVIATOR ESCAPES INJURY

Robinson Fogg of the aviation corps, now somewhere in France, has met with his first accident. In a letter to a friend he tells of his machine crashing to the earth while he was on a short duty. Young Fogg escaped uninjured.

JUST DAVID
By ELEANOR H. PORTER

Author of "Pollyanna".

Ten year old David and his father (a famous violinist) lived on a mountain, with the woods, the wild things, and their two violins. Then a change came and David was left to the care of gruff farmer folk in whom the waggon of kindness was buried deep. But "Just David" brought music and sunshine into many lives and played a part in a very pretty romance.

MEN WANTED TO QUALIFY FOR VACANCIES

Since the recent order of the War Department that no more enlistments would be accepted many registrants are waiting their turn to be called to the colors. This is no longer necessary to those who are really anxious to see service as voluntary induction is now taking the place of voluntary enlistment.

Citizens between the ages of 18 and 45 who possess the necessary qualifications may be inducted into the service by application and in this way may obtain positions in the army for which they are best fitted. The Coast Artillery Corps will receive inducted men who possess technical and educational qualifications and these men will be trained to become commissioned officers and enlisted specialists. The great shipment of heavy artillery troops to France has left many vacancies in both the commissioned and enlisted personnel of the Coast Artillery and these vacancies must be filled by qualified men. Chauffeurs, clerks, electricians, stenographers and typists and others are afforded an opportunity to get into service very quickly and with excellent prospects of going to France after preliminary training in this country.

Lieutenant Maynard of the Coast Defenses of Portsmouth will furnish information in regard to the course of training and the method of induction necessary to entrance into this branch of the army. He will be at the office of W. L. Condon, 4 Market street every day next week between the hours of 10 and 11 a. m.

J. H. HERSEY, President.
T. Benfield, Rec. Sec.

Today the Fourth of Fighting Liberty Loan begins and everybody would do well to read the proclamation of the President on another page. Make your subscription early and have it over with. It will save time and trouble, because the local committee intends to see that every man has a chance to say yes or no. Be able to say yes.

Keep cool and don't worry. If you are reading the Herald you are happy and not wearing a grouch.

FIGHTERS MAY BE INCOME TAX FREE

Washington, Sept. 27.—Officers and men of the fighting forces of the United States will pay no income tax on their salaries while engaged in active service at sea or in the field, according to an amendment inserted in the revenue bill by the Senate finance committee.

EXETER

Exeter, Sept. 28.—Owing to the request of President Wilson the big clam bake and outing of the Rockingham County Republican club which was to have been held in Ray's grove Bay on Columbus day has been postponed to Oct. 19. This was announced Friday by President Kimball Wentworth of Atkinson. Extensive preparations had been made which will materialize on the new date.

Sergt. Frank C. Dwyer, son of Mr. and Mrs. Maurice J. C. Dwyer, who leaves for an army camp in Ohio Sunday, where he will assist in the training of the new recruits, was given a public reception in Masonic hall on Thursday evening. It was attended by many of the leading citizens, a banquet being tendered him and he was heartily welcomed home. He was the first Exeter boy to return from the battle fields of France and tell interesting stories of the great war. He highly prizes the colors with which his regiment was decorated by the President of France and has many interesting relics of the war.

Ensign James Churchill, son of Mr. and Mrs. Fred Churchill, who is at his home here on a leave of absence till Oct. 6, is visiting in Boston. He has recently received letters from two brothers, John and Leland Churchill, who are both in France.

If Bulgaria lays down her arms, Turkey's army, shattered by the coup of General Allenby, will be cut off from her allies. Her lines of communication will be severed except across the Black Sea from Romania or through the mountains from Russia, where the German paid Bolshevik power is rapidly on the wane.

With the supplies of German made munitions and raw materials depending upon this slender thread, military experts declared that the Ottoman government will fall. But it makes no difference to the Entente if Turkey is abandoned by the Bulgarians, quells; he no longer can be a menace to their phalanx.

The back door of Austria will beajar to the forces of the British, French, Italians, Serbians and Greeks plowing ahead through liberated Serbia. Once over the Danube they would pass through the countries of the oppressed nationalities who bear no love for the dual monarchy and would offer little if any resistance. The early winter in the Balkans with the limited means of communication would be the only bar to the invasion.

With the defection of Bulgaria it would be necessary for Austria to throw an army across her southern border and to do this would have to withdraw part of her forces from the Italian front, which would quickly be followed by the Italians taking the offensive along the Plave river. Italy has still large reserves of men, and would be quick to grasp the chance to get back the territory held by the Austro-German forces. The Australian divisions on the western front are falling back with the Germans before the onset of the Allies.

The French and Americans are keeping up their offensive between Verdun and Rheims while the British have attacked along a wide front near Cambrai. Both have taken over 20,000 prisoners in two days and numerous naval guns of all calibers.

While the tide of victory is running so strong for the Entente allies, President Wilson was again voicing the determination of the United States to battle on until the German military power is forever crushed.

Speaking in New York on the eve of the opening of the fourth of Fighting Liberty Loan, he laid down the five cardinal points upon which America will stand to the last man and dollar. "The price of peace will be impartial justice for all nations," he declared. "The world does not want terms; it wishes the final, frank peace of justice and fairness."

Willard J. Young of Brentwood aged 28, employed at the Portsmouth navy yard, died Thursday night of the same disease and his wife, Gladys L., aged about 21, died Friday at noon both after a short illness.

Mr. and Mrs. Harry Wilson have returned to their home in Dorchester, Mass., after visiting Mr. and Mrs. Fred Trefethen.

A number from this part of the town attended the Rochester Fair on Friday.

CHINAMAN HAD DEAD MAN'S PAPERS.

Washington, Sept. 27.—Wong Shim How, the first Chinaman to appear before the United States district court in this city for some years as being unlawfully in the country under the Chinese Exclusion act appeared before Commissioner Burne P. Hodgman at the federal building in Concord. Thursday Wong was arrested in one of the Chinese restaurants at Dover for burglary.

state, and at the time had in his possession registration papers which upon investigation proved to be those of a native born Chinaman who had died while on a visit to China. A plea of not guilty was entered by the defendant. Bill was fixed at \$1,500. The case comes up for further consideration on Oct. 9.

Washington, Sept. 27.—Five hundred physicians and one thousand Red Cross nurses will be sent to Massachusetts by the United States Public Health Service to assist in combating the influenza epidemic. Orders for the mobilization of the doctors and nurses, who will go to Boston from States in the Middle West, were issued by the Red Cross this morning at the request of Dr. Allan J. McLaughlin, first assistant surgeon general, who is directing the Federal campaign against the epidemic in various sections of the country. The physicians and nurses should be arriving in the Bay State within forty-eight hours.

Dr. McLaughlin also instructed a number of the service experts in organization and in establishing emergency hospitals to leave for Boston during the day. Ten specialists attached to the service will leave with the party. All will report to Dr. W. F. Draper, past assistant surgeon, who has been placed in charge of the situation in Massachusetts. Dr. Draper, who received his orders yesterday, had been expected to reach Boston this morning, but a telegram indicated that he would not arrive before tonight.

The physicians who will be sent to Massachusetts are members of the volunteer medical service corps. There will be fifty units, each comprising ten doctors. The units will report upon arrival to Dr. Draper, who will assign the men wherever he believes their services are most needed. The doctors are being assembled in the Middle West because the service deems it inadvisable to recruit physicians from Atlantic coast States, where the disease is more or less prevalent and where it may become epidemic.

A comparatively small number of cases of influenza has been reported in the Middle West.

SYSTEM OF NAT.
DRAFT LOTTERY
EXPLAINED

Newspapers, which will be a few days after the drawing.

In his statement, announcing the date and arrangements for the drafting, General Crowder said:

"Because of the time and the mass of figures involved, the press associations of the country have united in informing me that it will be impossible for them to undertake the sending of the numbers over their wires as they did on the occasion of the first and second drawings. They have agreed upon and proposed to me a plan whereby copies of the 'Master List,' as determined by the drawing, will be sent as promptly as possible direct from this office to the 154 district boards, which will be instructed to make them available immediately upon receipt to the newspapers within the area of their jurisdiction."

"This plan I have approved upon representation from the responsible heads of these associations that they have individually canvassed the opinion of their respective clients and have found them all, with possibly one exception favorable to the idea of not attempting to handle them by wire."

"I take this occasion, therefore, to request of the newspapers of the country that none of them individually attempt to carry these numbers from Washington, but will withhold publication of the list until it has been released to them by the district board having jurisdiction in the area in which the respective newspapers are located. I make this request in order, as far as possible, to place the newspapers in the several localities of the country on an equal footing as far as obtaining the list is concerned. This is not intended, however, to debar correspondents, in writing their accounts of the drawing from using the first 100 numbers drawn."

"Apart from this procedure of the drawing will be practically identical with that followed on the two previous occasions. The numbers will be drawn from a glass bowl by officers blindfolded. These numbers have been printed on small slips and rolled up before being inserted in the container in such a way that only the reverse side of the slip, which is of blue will be visible from the outside."

"Fortunately for the historical aspects of the drawing, we have been able to secure for the occasion the same glass bowl that was used at the first drawing of July 20, 1917. This bowl, the property of Captain Charles R. Morris of this office, was presented by him after the first lottery to Independence Hall, in Philadelphia. The custodian of Independence Hall has contributed for the occasion a wooden ladle made from the original rafters of Independence Hall. Around the edges of the table on which the bowl will stand will be a wooden frame made from the timbers of the old frigate Constitution."

"The officers and enlisted men who will handle the drawing will work in three relays of one hour on and two off in order that there may be no interruption in the drawing. Cots will be provided for those off duty, as well as food. One officer, blindfolded, will draw the numbers from the bowl. Four others, revolving them from hand to hand, will break open the containers, open up the slip containing the serial number and will call out the number to the three officers managing the tally sheets and to the one who records the numbers on the black boards. After a teller has called out a number he passes it to another officer, who verifies it and strings it on a thin wire in the order in which it had been drawn. It is impossible for any mistake to be made that cannot be checked for correction."

The effect of the drawing simply means that every man who knows he is fit for military service and has no valid reasons for deferment can expect to be ready to be called for duty irrespective of where his number comes out.

When the question of telegraphing the order of the numbers all over the United States was fully investigated, it was found that to do so would have entirely occupied all the facilities for distributing news for at least 24 hours continuously. It meant that for 24 straight hours, possibly more, not a single word of news of the war events at home could have been published by the newspapers. The plan of having the government use its own machinery, through the boards, to distribute the numbers was then evolved and it brought the added advantage of making the list when finally published in official form on which boards and registrants could absolutely depend at the same time it left the ordinary channels of news open as usual.

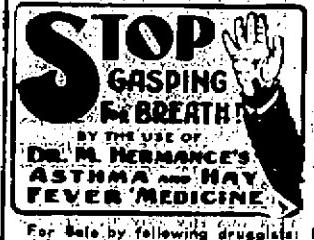

Under the plan, as perfected the provost marshal general's office will distribute the official complete master list of numbers to the district boards by mail as fast as they can be turned out by the government printing office. The boards will be instructed to give them out to newspapers and the public as fast as they receive them. Newspapers can make their own arrangements to get the lists from the boards and the registrants, entirely depend on the lists as published in the

Ayer, Mass., Sept. 27.—Death from influenza is on the decline at Camp Devens. Among the deaths which occurred today was that of John S. Hyatt, a prominent manufacturer of Leominster, who was serving as a private in the divisional headquarters. Although discharges from the hospital were retarded by the bad weather, 24 new cases were reported for the day. The K. of C. building has been turned into a nurses' dormitory.

Hold Your Own Rally, With Your
Own Conscience

The influenza epidemic has interfered with the Liberty Loan campaign. Word goes out that the rallies that were to usher in the campaign are to be abandoned. This puts the more significant burden on the conscience of each individual. We would like to see the early subscriptions to the loan surpass all precedents established in preceding campaigns. Let's see how promptly we can respond to the call of our country. Let's see how keenly such of us recognizes the vital responsibility which rests upon us all to exert every effort to smash the Hun, to drive him to Germany an understanding of the determination we have formed to annihilate Prussianism and to re-establish honesty and democracy as the permanent institution of human society.

Unless you have already bought your bond, go and "Vote for Liberty" at the most convenient polling place.

Portsmouth, N. H., Saturday, September 28, 1918.

Dangerous and Inexcusable.

Every year there are numerous fatalities and serious wounds caused by persons who point firearms at others and pull the trigger in the belief that the weapons are not loaded. After the shooting has been done and the victim lies stretched on the floor or ground the person responsible for the tragedy usually collapses more or less dramatically and the papers contain blood-curdling accounts of the "sad happening," with full details of the awful suffering of the person who has brought agony or death to another.

There was a case of this kind a few days ago in a suburb of Brooklyn, N. Y. A young lieutenant who had returned from the front to serve as an instructor in a training camp brought with him a number of souvenirs, among which was what the American soldiers call a "kamerad pistol." This is a very small weapon, and it is claimed that the Germans conceal them in their hands, shout "Kamerad!" and then with the little pistols shoot the soldiers who go forward to take them prisoners.

And this young officer was not content to exhibit the weapon and explain its use; he must give an illustration. Absolutely positive that the pistol was not loaded, he raised his hands above his head, cried "Kamerad!" and asked his cousin to step forward as if to take him into camp. As his cousin approached him the officer leveled the pistol, pulled the trigger and there was a sharp report. The bullet missed the young fellow who was assisting in the acting, but the lieutenant's father, who had been an interested spectator, fell to the floor with an ugly hole through his lung. The son was prostrated with grief, but the damage had been done, and at last accounts it was a question whether the injured man would live or die.

All accidents and fatalities of this character would be eliminated if people would observe the simple rule of never pointing a firearm at any person, no matter how empty they may know it to be. There are altogether too many of these "Didn't know it was loaded" shootings, and they will continue just as long as the practice exists of aiming guns and pistols at people and pulling the triggers, in the belief that the weapons are not loaded.

It is a wretched and a dangerous joke, and one for which there is no reasonable excuse. Boys should be taught at home and in school never to point a firearm, loaded or empty, at any person, and if the lesson cannot be taught in the homes and schools it should be taught by the courts. It should be made a penal offense to menace any one with a gun or pistol, even in play, and the penalty should be sufficiently severe to impress upon the public mind that this foolish game of "make believe" is dangerous at both ends.

The Unitarian church of this city must be recognized as a loyal and helpful "unit" in carrying on the war. At its recent fair it collected the war tax on admissions, though it would have been exempted for the asking, and turned the money over to the internal revenue collector. And it is safe to say that every person who attended that fair feels better about it than if the tax had not been collected and used in the way it was.

The country has little patience with strikers at this time, but public sentiment will not be harsh with the men in the Cramp shipyards who struck the other day because ball players, actors, pugilists and other inexperienced men had been placed over them as bosses. According to reports there is room at some of the shipyards of the country for a profitable "weeding out" process.

The launching of ships from the local yards is becoming quite common, but not so common as to be without interest. Large numbers of people gather on every occasion to see what Portsmouth is doing to help win the war, and there is the greatest enthusiasm as the vessels slide gracefully from the ways into the water.

On the ground that "Prevention is better than cure" the opening of New Hampshire College at Durham has been indefinitely postponed on account of the influenza epidemic. It is well to be on the safe side, but all will hope that the postponement will not have to be long continued.

Regional Director Hustis finds room for and need of improvements at the railroad station in this city. Others made the discovery long ago and it is to be hoped that something will now be done about it.

The deer hunting season has opened in Maine, and already one man has been killed.

The President to the People of the United States

THE WHITE HOUSE
WASHINGTON

A gain the Government comes to the people of the country, with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great cause for the rights of America and the liberation of the world may be prosecuted with ever increasing vigor to a victorious conclusion. And it makes the appeal with the greatest confidence because it knows that every day it is becoming clearer and clearer to thinking men throughout the nation that the coming of the war is an essential movement. The money that is held back now will be of little use or value if the war does not come and the selfish masters of Germany are permitted to dictate what Americans may and may not do. Men in America besides have from the first made no dedication to their doors and their fortunes to the vindication and maintenance of the great principles and objects for which our Government was set up. They will not fail now to show the world, for what their wealth was intended.

PEOPLE'S OPINIONS

Let The Nurses Answer the Call

Editor Portsmouth Herald:

Soon after America's entrance into the war, a series of classes in Home Nursing, First Aid and Dietetics, was held in this city. Hundreds of women in this vicinity are therefore qualified nurses aids, either holding the easily acquired Red Cross certificates, or having gained nursing experience otherwise, which would make it possible for them to assist trained nurses in times of emergency. The emergency has arrived and thus far only two women have answered the appeal of Mayor Ladd and the Red Cross Board for help at the city hospital, opened last Monday.

Too much praise cannot be extended in the Red Cross nurse, Miss Nordell. She had very little help of any kind before Wednesday afternoon, being on duty night and day, almost without respite, for forty-eight hours. Efficient, uncomplaining, cheerful under the burden laid upon her, her work is an inspiration to those few who have seen it. The first volunteer helper served nineteen hours without any intermission. Though inexperienced, she cared for six men during the night without help of any kind. Two of these men were in a critical condition, delirious and needed constant care. (Miss Nordell was sleeping, fully dressed close at hand, ready to be cal-

1885 to 1892, will be sorry to hear of his death, which occurred at the home of his son at Hampton Falls last week. While here he labored most faithfully and the good seed sown by him has, and will, bear much fruit, for he was a conscientious Christian man. He was 90 years of age at the time of his death. Although it is 26 years since he left this parish, his letters, which he wrote to friends here once or twice a year, prove that he was still interested in the welfare of the church, town and people. He would inquire for each member of each family who resided here when he was pastor of the local church. Much sympathy is extended to his son. We shall always cherish pleasant memories of him and of his wife who passed on to the eternal home a year ago.

Since then two Red Cross nurses have been sent from Manchester and an experienced Dietitian has been added to the staff. The situation has been improved, but more patients are being sent in and the need for nurses aids is very pressing indeed. Several of the patients have pneumonia and are desperately ill. If these valuable young lives are to be saved, Portsmouth women must respond to this call.

This letter is written at the request of Mayor Ladd and in the belief that those women to whom the call should come do not realize the urgency of the need.

The Fourth Liberty Loan

For the fourth time our government asks the public for funds with which to prosecute the war. The amount is larger than any previous loan, because of the growing cost of the war. Our overseas army approximates one million, five hundred thousand men. Food, guns, munitions, transportation and the necessary attendant costs mount into the billions. The strain of war is upon us. We now have a realizing sense of the present and impending loss in men and money, the necessity for service and sacrifice, for economy and patriotic devotion. In order that the lives of our army abroad may be saved, the suffering of the sick and wounded ameliorated, there must be an unbroken flow of guns, munitions and army equipment, of food, medicine and hospital supplies. To insure this uninterrupted flow in sufficient volume the government needs the funds it asks for.

By the selective draft the personal military burden is imposed upon all of military age and fitness with uniformity and impartiality. When it comes to the placing of government bonds, the matter of subscription is voluntary. Subscription, however, is a privilege as well as a patriotic duty and involves making a safe investment at a fair rate of interest.

The country is thoroughly aroused. All camouflage as to who brought about the war and their purpose in so doing has been dissipated. The Huns stand convicted before the world. Germany believed the submarine would give her victory, and she deliberately and purposely forced the United States into the war, believing in her blind conceit that from this country she would recoup her losses by receiving a large indemnity. For generations we shall continue to pay taxes "made in Germany" but our only contribution to Germany direct will be delivered in a masterful manner by our army and navy.

It is our duty as citizens to make this loan a success and it is our pleasure to offer you, gratuitously, the facilities of the New Hampshire National Bank and Portsmouth Trust and Guarantee Company in making subscriptions and to pledge you our very best service in carrying out your intentions.

HUNS FIGHT DESPERATELY TO HALT ADVANCE

(By Associated Press)

With the American Army Northwest of Verdun.—With their backs to the outer edge of the Brumhilde line the Germans today were fighting desperately in an endeavor to bring the American advance to a definite halt. The Germans were increasing the volume of their fire and indicating anew their determination to resist to the utmost. The line fought for runs through northern Argonne wood and eastward along a line near Ivory and thence northeasterly. The Germans are massed in the Glorges woods and in the Emon woods. The Americans are using their artillery freely to break up the enemy positions. The Germans are depending upon machine gun fire at every advance point in their efforts to check the Americans. Thick clouds and ground mists again hampered the airmen detailed for observation today in the area of the operation now in progress. The conditions, however, did not prevent entirely operations by the pursuit planes of the American air forces.

To the Public:

It is important for the Public to realize at this time that the telephone service of this Company is to a considerable extent impaired as a result of the prevalence of Grippe among its forces. As a result of a daily absentee list of 20 to 30 per cent of its employees the service is necessarily slower than at normal times in spite of the splendid effort of those who are capable of remaining on duty.

The Public can greatly aid the efforts of our operating forces in the following ways:

1. BY ELIMINATING UNNECESSARY CALLS.

2. By refraining, so far as possible, from special appeals to the Chief Operator or Supervisors, whose entire time should in the present emergency be given to the supervision of their work.

3. By showing leniency to those still capable of remaining at work.

4. By not permitting children to use the telephone.

TO MOBILIZE LOCAL NURSES AND STUDENTS

The following self explanatory telegram was received on Friday evening by Col. H. C. Taylor, the Chairman of the Portsmouth Chapter of the Red Cross from James Jackson, the Director of the Eastern Division of the American Red Cross.

Boston, Mass., Sept. 27, 1918.
H. Clinton Taylor, Chairman Red Cross, Portsmouth;

"Owing to seriousness of influenza it is necessary to mobilize all women who have had home nursing or first aid instructions. After mobilization if you can spare any from your community notify me at once, by wire how many will hold themselves subject to call. Expenses and salary if necessary will be paid on account of birth of nurses. This is imperative for your own possible needs as well as for any help you may be able to render outside communities."

TO DIRECT NAVY YARD MINSTRELS

Henry J. Quinn of Amesbury, who has had 30 years' experience in directing minstrel shows in Southern New Hampshire and Massachusetts, has been secured to direct the minstrel show to be given by the employees of the navy yard, on the evenings of Dec. 11 and 12. The first rehearsal will be held on the evening of Oct. 8th, the place to be later selected.

The Herald is the only paper in this section that prints the Associated Press news. It has it exclusively every day.

STUDENTS FOR NAVAL TRAINING

Plans have been perfected by the navy department for the induction on Oct. 1 of students into the naval units of the college training corps.

The students will be voluntarily inducted into the naval reserve force as apprentices seamen. The men will be placed on active-duty pay and allowed a sufficient sum for the cost of their lodgings, subsistence and tuition, but this allowance shall not exceed \$2 per day.

The training will cover a period of three months, similar to the term of the student army training corps. There will be a preparatory course for the line and engineering courses.

Members of the naval reserve, who by former regulations were permitted to continue their studies until graduation, are required to join the new naval training units.

The quotas allowed to educational institutions in this vicinity are as follows:

Boston University, 50 students; Harvard University, 400; Massachusetts Institute of Technology, 400; Holy Cross College, Worcester, 80; Worcester Polytechnic Institute, 50; Tufts College, 100.

XMAS PARCELS FOR NAVY DUE NOV. 15

Washington, Sept. 27.—Christmas packages for men serving on naval vessels abroad must reach New York not later than Nov. 15, Secretary Daniels announced today in making public regulations governing the sending of such packages for men serving in the naval service both at home and in the war zone.

The regulations provide that packages sent by parcel post must comply with the postal regulations and must be enclosed in substantial boxes with hinged or screw top covers, so as to facilitate opening and inspecting. All boxes sent by express are limited to 20 pounds, should not be more than two cubic feet volume, be of wood well strapped and have hinged or screw tops. No perishable food product other than those in cans or glass jars should be packed.

All packages must be marked with the name and address of the sender, with a notation "Christmas box" and must be forwarded in care of the supply officer, fleet supply base, Twenty-ninth street and Third avenue, South Brooklyn, N. Y.

BLEW HIS HEAD OFF WITH HIS SHOTGUN

Arthur H. Lyford, aged 49, a tanner of Kingston, committed suicide on Friday afternoon at his home in that town by blowing off the top of his head with a shot gun.

Lyford lived at Kingston Center and had a housekeeper, and on Friday forenoon he took down his old double barreled muzzle loading shot gun and fired it out in the yard by firing it. Later he went up stairs with the gun and a shot was soon afterwards heard and when the housekeeper went up she found Lyford dead.

He had placed the shot gun against the foot of the bed, put the muzzle in

DOING GREAT GOOD AT THIS SEASON

A superlative blood-purifying medicine like Hood's Sarsaparilla, combined with a superlative iron tonic like Peptiron, makes the ideal all-round treatment. No other medicines possess such curative properties as these two working together.

Two dollars invested in these two medicines will bring better results than four dollars spent in any other course of treatment or attendance.

It will be wise to get them today.

INFLUENZA ON DECLINE AT DEVENS

The general influenza condition in this city and vicinity on Friday was somewhat improved and there were not so many new cases reported or so many deaths.

The Naval hospital did not have a critical cases the general condition has improved and not many new cases death on Friday and while the building is crowded and there are many very were reported. This is the first day for this week that there has not been deaths in this hospital.

In this city and vicinity there were two deaths, one in Kittery and another in this city.

Again the Government comes to the rescue of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberation of the world may be prosecuted with ever increasing vigor to a victorious conclusion. And it makes the appeal with the greatest confidence because it knows that every day it is becoming clearer and clearer to thinking men throughout the nation that the winning of the war is an essential investment. The money that is held back now will be of little use or value if the war is not won and the soldiers masters of Germany are permitted to dictate what America may and may not do. Men in America, besides, have from the first until now dedicated both their lives and their fortunes to the vindication and maintenance of the great principles and objectives for which our Government was set up. They will not fail now to show the world for what their wealth was intended.

Boston, Sept. 27.—A request that the New England regional milk committee furnish producers with a system of keeping records of the cost of production, was made at the executive committee meeting today by Richard Pattee of Laconia, secretary of the New England Milk Producers' association.

WEEKS ASKS FOR MILLION TO FIGHT EPIDEMIC

Washington, Sept. 27.—Senator Weeks, Massachusetts, today introduced a resolution asking that \$1,000,000 be appropriated to fight the spread of Spanish influenza, now prevalent in many sections of the country.

THE ANSWER.

(Written for The Herald)
When our Country is too crowded and we can not idly lay,
When we are without employment, and most likely out of pay;
When the girl we love so dearly turns her head the other way,
What's the answer boys?

The answer is: Me, for the U. S. A.
If it wasn't for the friendly shores, across the ocean blue,
Where a guy can find a thousand and one things that he can do,

(Or may be a pretty, hussy if his name and looks are right!)
Why, I think we would go loony and give up the unequal fight!

And indeed old Uncle Sammy knows the way to treat a chap;

He will say to one: "Be decent, don't you look for any scrap,

And as long as you behave and you will act as should a man,

You can feel that to old Europe you're too fair attacked the can."

Is there more to ask? The lovely shores of sunny Italy,

We will miss, but here is shining the warm sun of Liberty,

We will miss the flowers, the fragrance of a sweet, eternal spring,

We will miss the birds that garrison among the roses sing.

Nevertheless we will forget it, though we won't forget the day.

Then we kissed our mothers farewell,

As we sang and sailed away.

There we were once and we loved it;

bitter fate wouldn't let us stay;

What's the answer, then?

The answer is: Us for the U. S. A.

DENTAL WORK FOR SOLDIERS "OVER SEAS"

(By Associated Press)

London, Sept. 27.—There has recently been a great demand for dental work among American soldiers stationed in England or enroute to France. The American army has a considerable number of dentists, and the American Red Cross has also furnished several but there were not enough. So Red Cross headquarters in London was asked to provide further aid, and within a few days, Captain E. Marion Cox, to whom this work was delegated, was able to report that eighteen American dentists residing in London had volunteered part time service in nearby American camps. To meet the requirements, dental rooms are being fitted up by the Red Cross at various American camps. An large aviation camp in a suburb of London, a dental unit is being erected by the Red Cross, which will provide three chairs and all the latest equipment for gas and electric treatment.

SLORAH CONVICTED OF MAINE MURDER.

Alfred, Me., Sept. 27.—John C. Slorah, a nursery salesman, 72 years old, was convicted of the murder of Miss Della Duquette, his former housekeeper, at Biddeford on Aug. 29, 1917, at the conclusion of a short trial in the supreme court today. The jury was out only six minutes.

Eight witnesses testified for the state. They were not cross-examined and no evidence was presented for the defense. Judge George L. Emery, counsel for Slorah, announced that he would take the case to the law court again on exceptions.

The first trial last January, was stopped suddenly in consequence of the exclamation by Slorah, while the jury was visiting his home:

"My God! Take me out of here or I will go insane again!"

The jury was dismissed and a new trial ordered. Judge Emery took exception, but they were not sustained by the law court.

When the trial was opened Thursday Judge Emery moved that the indictment be quashed on the ground of former jeopardy. Atty. Gen. Guy H. Sturgis argued that the delay in trying Slorah was evidently the fault of the respondent. Chief Justice Leslie C. Cornish denied the motion.

There has been a good number of workmen who have gone home during the epidemic, claiming that if they are taken sick at home they will be taken care of, while in this city with the limited accommodations for taking care of the sick, they would not be as well off. The majority of those who have gone home are not sick, but frightened. They have not quit their jobs, intending to come back as soon as the epidemic abates.

INTERESTING TOUR OF MOUNTAINS

Mrs. Jewel P. Parrott of Newington accompanied her five year old son, John, and Mrs. Annie E. Cannetti of Stratham, returned yesterday from a two week's trip to the White Mountains. Their trip was made by carriage and was filled with pleasant adventures. They started via Crawford Notch and came home through Franconia. Mrs. Parrott drove the entire trip, often going about 25 miles a day. They carried with them a camping outfit and cooked a number of their meals by the road side and stopped at night at farm houses on the way. Mrs. Parrott said the weather was very good during the trip and she found the people most hospitable. Several times strangers, knowing the two women were making the long trip, invited them to stay over night at their farms, and on one night they were guests at one of the best of the White Mountain hotels, through the courtesy of the proprietor, who took the opportunity to offer hospitality to the little party.

Mrs. Parrott said, late one afternoon, she did get a little nervous while on the trip when told there was 25 miles of woods ahead, so upon being offered a place to stay over night in the vestry of a church the party remained there until morning. The entire trip was made without accident and although Mrs. Parrott has made a trip to the mountains in the past two years, this one was the longest and most enjoyable and she plans to repeat it next year.

MARINES'
PHYSICAL
STANDARD

Boston, Sept. 27.—To tighten up every screw, rivet and plate in the recruiting machinery, preparatory to the "selective induction" from Tuesday forward of 100 men a month for the next four months, Lieut. Col. C. B. Hatch, Inspector of the Eastern Recruiting Division of the Marine Corps, came on his quarterly visit of inspection to the station of the "Devil Dogs" in Scollay square this morning.

"The Marines' record and traditions have been upheld," said he, "by the high physical standard set, and that will be maintained. And we'll start in full speed ahead."

Capt. B. J. Doherty, chief of the station, this morning sent orders to the six female privates, enrolled in the Marine Corps Reserve, about 40 days ago, to present themselves in Scollay square Monday for transportation to their duties at the Leathernecks' headquarters in Washington.

CHURCHES TO CLOSE ON SUNDAY

For the first time in a great many years the churches of this city will be closed on Sunday for all services. This is by order of the Board of Health and Public Health Service and will be enforced to the letter.

The order is taken by the clergy and laymen as a necessary preventive measure to combat the influenza and will probably only be in force for one Sunday.

SHATTUCK SHIP YARD NOTES

Government Supts F. A. Jones is restricted to his home by illness.

The influenza epidemic has had but few victims here among the men. Out door workers do not appear to be susceptible to the disease. There are few more rugged men in the country than the thousands employed here.

The force will be increased to four thousand men. Write home for your friends.

Dear Old Pal of Mine sung by John McCormack

Song is often the only avenue that can be found for expressing the utter loneliness and misery of the battlefield. It takes a soldier, such as Lieut. Gitz-Ricc, to translate the resulting emotions into music. And who could better interpret such emotions in song than John McCormack? "Dear Old Pal of Mine" voices the longing of the soldier for the woman whose comradeship would surely be a solace and a reviving of spirit.

DONATIONS WERE LARGE

A most generous response was made by local people to the call for second hand clothing for the people of Belgium.

At the old court house on Court street yesterday afternoon bundles and baskets of clothing were brought until a large amount was on hand.

The clothing given was especially desirable for the cause as there were so many warm coats and garments, shawls, warm underwear, woolen suits, caps and a large quantity of second hand shoes, some in excellent condition.

The work was in general charge of Mrs. Willis D. Walker and assisting in the receiving room were Mrs. Samuel W. Moses and Mrs. Albert H. Ward. As the donations came in they were sorted and every pair of shoes was tied together and heavy garments separated from thin clothing. People who were unable to bring their donations had them sent for by the committee.

The clothing will be shipped to Boston next week and from there soon be sent to Belgium. The committee wishes to thank the public for the quick and generous response made to the call for the suffering people of Belgium.

NO FURTHER INCREASE IN GRIP

Our readers were pleased to read in Friday evening's Herald based on figures from all the various sources that there was no increase in the grip epidemic. There has been no increase today and at the Naval Prison there is a further decline in cases. Local physicians are optimistic and feel that the epidemic is now under control. If you have a cold take care of it.
